Côme de Larocque

Fullstack Engineer Senior / Product Builder

Looking for a senior Fullstack / Product Engineer role · full-time or freelance · available now

Product-minded fullstack engineer: I design and ship web products used at scale, from first prototype to production. Eight years across startups, agencies and large corporations. I experiment with generative AI every day, both in the products I build and in how I build them.

Experience

2023 – 2026

BNP Paribas & Hellobank!

Lead Front-end Engineer · via Nexton Consulting · Montreuil

Built the front end of the BNP Paribas and Hellobank! chatbots (Svelte + Mistral generative AI), from POC to production, meeting accessibility standards.

Measured impact: conversations handed over to a human advisor down from **66% to 35%**, **4 million customers** reached, showcased at **VivaTech 2025**.

Also owned the search engine and FAQ of the BNP Paribas and Hellobank! websites, with a strong focus on SEO and accessibility.
